

Connected Family and Friends

Items you need

- Paper/cardboard
- String or wool
- Glue & scissors
- hole punch
- Textas and pencils for decorating

Steps

1. Think about all the special people who you love.
2. Create a love heart for each person. You can print the template on the following page and glue it to a recycled box, then cut out the hearts. Or you can draw your own love hearts on paper and cardboard and cut these out.
3. For each heart, write the name of each person you love. You can decorate the hearts too.
4. Use a hole punch to make a hole in the middle top of each love heart.
5. Thread a long piece string or wool through the first heart and tie knot at the back. You may wish to lay out all your hearts and make sure your string can reach across all the hearts.
6. Weave the string through each heart so they are all connected to the string. At the end, tie a knot behind the last heart.

Well done! You have connected all your family and friends who you love with your own piece of string.
