

# Confetti Jelly

## School holiday fun!

This is a special, colourful eye-popping treat and it's called Confetti Jelly!

Little Community Heroes can be chefs. They will have fun making each colour cup of Jelly (under adult supervision) and helping scatter the cubes into the dish to create their special treat.

This activity is great to discuss colours, counting and measurements for children of all ages.

### Confetti Jelly

#### Ingredients

- 4 different flavours of jelly
- 4 cups boiling water
- 3 tablespoons gelatine powder
- 1/4 cup cold water
- 1 can condensed milk
- 1 cup hot water

#### Instructions

1. Start by preparing the four different flavours of jelly. In separate containers, dissolve each jelly flavour with one cup of hot water.
2. Let the jelly set in separate containers in the fridge, for about 2 hours or so.
3. Once the jelly is set, in another bowl, dissolve the gelatine powder in 1/4 cup of cold water. Once it's completely dissolved, add 1 cup of hot water and add the condensed milk.
4. Mix until combined.
5. Cut the set jelly into cubes and place randomly into a serving dish – for example a rectangular glass dish.
6. Pour over the condensed milk mixture, and transfer the dish to the fridge to chill for 1-2 hours or until completely set.
7. When ready to serve, cut the Confetti Jelly into cubes using a sharp knife.
8. Serve immediately.
